

DENNIS B. PAUS

LAB INSTRUCTOR APPLICANT – ELECTRONICS / ELECTRICAL ENGINEERING

Salalah, Oman | Nationality: Filipino

Mobile no: +968-97410949 | Email: dennis.paus.ece@gmail.com | LinkedIn: linkedin.com/in/dennispaus

PROFESSIONAL SUMMARY

Master of Science in Electrical Engineering (2012), Major in Electronics Engineering, with a Bachelor of Science in Electronics and Communications Engineering. Eighteen years of electrical and electronics laboratory instruction, including eleven years in a government vocational college in Oman. Combined lecture, assessment, and workshop practice: prepare and run laboratory experiments, demonstrate and troubleshoot equipment, supervise student projects, maintain tools and consumables, and apply laboratory safety.

EDUCATION

- **Master of Science in Electrical Engineering**
Technological University of the Philippines, Manila (2009–2012)
Diploma title: Master of Science in Electrical Engineering.
Major (transcript): Electronics Engineering.
- **Bachelor of Science in Electronics and Communications Engineering**
Adamson University, Manila, Philippines (2002–2007)
- **Doctor of Philosophy in Computer Engineering (in progress; not yet awarded)**
Mapúa University, Manila, Philippines
Research focus: embedded systems, TinyML, IoT, and AI-driven electronics.

LABORATORY AND TEACHING APPOINTMENTS

Electronics Engineering Instructor

Salalah Vocational College, Oman (2015–Present)

- Deliver Diploma-level instruction and assessment on the Diploma in Electronics Instrument Maintenance (electronics, circuit analysis, and workshop practice).
- Prepare laboratory experiments, demonstrations, and student materials before class.
- Set up, demonstrate, and troubleshoot bench equipment: oscilloscopes, signal generators, power supplies, multimeters, and soldering stations.
- Install, check, and maintain electronics kits, trainers, and consumable supplies; keep the workshop organised.
- Guide students on laboratory safety, correct equipment use, and housekeeping.
- Kept equipment manuals and a simple maintenance / inventory record for laboratory instruments and consumables.
- Support student graduation projects in electronics, embedded systems, and IoT (more than 20 projects supervised).
- Contribute to departmental quality assurance and the Graduation Project Committee.
- Modules: electronics and circuit analysis, communications, embedded systems / IoT, PCB and workshop practice, graduation projects.

Electronics & Communications Engineering Lecturer

Far Eastern University Institute of Technology, Manila (2010–2015)

- Delivered lectures and laboratory sessions in analogue/digital communications and electronic circuit analysis.
- Prepared teaching materials, assessments, and laboratory learning resources.
- Supervised final-year thesis projects and gave feedback on student practical work.

Electronics & Communications Engineering Instructor

AMA Computer College, Cavite (2008–2010)

- Taught foundational electronics and circuit analysis with integrated laboratory applications.

Engineering Instructor (Part-time)

Lyceum of the Philippines, Cavite (2008)

Electronics and Communications Engineering Instructor (part-time)

Rogationist College, Cavite (2010–2013)

LABORATORY COMPETENCIES

- Laboratory operations: experiment setup, demonstrations, student supervision, and workshop housekeeping.
- Equipment: oscilloscopes, signal generators, soldering, PCB prototyping, electronics trainers, embedded kits.
- Maintenance and troubleshooting of teaching equipment and student project hardware.
- Inventory of tools and consumables; preparation of parts for student projects.
- Laboratory safety briefing and safe equipment use.
- Educational technology: Google Classroom, Webex, video resources, Multisim, Eagle.

SUPERVISED APPLIED PROJECTS (SELECTED)

- **Lab Equipment Monitoring (ESP32, LoRa)** — supervised student graduation project.
- **ESP32 home automation with gas sensors and IoT remote control** — supervised student graduation project.

APPLIED PROJECTS

- **Online FM Radio (ESP32, Wi-Fi, live weather API)** — instructor-built laboratory / demonstration unit.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Licensed Electronics Engineer**, PRC Philippines, ID: 42665
- **Licensed Electronics Technician**, PRC Philippines, ID: 00993
- **IAENG** Member, ID: 565700
- **Computer Machine Vision with Machine Learning; Introduction to Embedded Machine Learning** — Edge Impulse / Coursera.
- **Key aspects and governance of Internet of Things, Big Data and Artificial Intelligence** – ITU, ID: 21323726
